New Knife Database

Posted by wickededge - 11 May 2012 15:07

Hey guys,

I'm really happy to finally announce our new Knife Database ! You can find it with preceding link or under the resources tab. Here I hope you'll all contribute your knives, adding in as much as you know about them and the recommended settings for sharpening them. I'll get started adding some today. Eventually, I hope we'll have a very comprehensive database that we can all use as a resource. It is searchable and sortable by any of the category headings so you can browse by manufacturer, steel type etc... I'm looking forward to everyone's contributions.

I should add that we built this database on the recommendation of forum members. Many thanks to all of you that are kind enough to share your suggestions!

Clay,

In keeping with website issues, I'm not sure if you're aware of this or not but I'm having trouble editing my profile. Maybe I'm doing something wrong but when I click on the profile tab and then click on the "Edit" button, the page does not appear to load properly and will not allow me to edit any of the following: User Account / Profile Information / Avatar Image / Forum Settings.

Just thought you would want to know since you're working on the website this week.

See attached photo.

Thanks,

Jim

Thanks Jim, I'll pass it along to our webmaster tomorrow morning and we'll see what's causing the problem.

We got the "Sort by Column Heading" issue resolved so the database is now much easier to sort so if you want to look at all knives with a particular steel (or any other field) all you have to do is click on the heading. Please keep the knife entries coming.

Hey guys, bumping this topic up again. I'll keep doing so to remind everyone to add in a knife now and then if they have the time. **Knife Database**

I did the ESEE Clay...sorry I din't put my name up. Can I add that now as an after thought?

I have another ten or twelve knives coming up in the near future.

Cheers

Hey Leo,

You can go back and add your name into the comments section. I'm working w/ with the webmaster to add Author or Contributor as another field. Please add as many as you can! I'm hoping this database will grow to be very comprehensive.

Hi Clay

I just put two more knives in the database, but they don't show. Do they have to be approved first before they appear?

Cheers
