Case for Wicked Edge
Posted by edhead35 - 05 Nov 2011 16:07

_____

I think a nice high quality case should be availabe for the WEPS. Big enough to hold the WEPS, the paperstone base, a full array of all WE stones, and thoughtfully divided for all of these items so it can be neat and proffesional. I envision this for any of us who will travel and sell our knife sharpening. It should be something durable and attractive with the Wicked Edge logo, and optional laser engraving to personalize it. Perhaps the aluminum or Pelican cases?

_____

That looks great! I took your guys' cue and ordered some bigger cases from Cabelas, hopefully will have them in today to experiment with. Thank you for sharing the pictures.

_____

Could someone tell me the height of the WEPS? SO if mounted, from the base top to the peak of the clamp. I trying to determine how deep of a case I will need as my WEPS is on backorder. Thanks

_____

I measure the clamp at 4 1/2 " and the paperstone base at 1 1/4" so 5 3/4" total.

Hmmm, I've got a Pelican case for my camera lenses - maybe I should try it for a WE case!

Yeah a 1550 is pricey compared to that pistol case. I've got one lying around that I couldn't pass up from Craigslist, it was $60 new in box. Finally found a use for it.

Hey Guys,

Found this website and am ordering a case from them. A little pricey, but MADE IN THE USA!

They are putting 1" layers of 2# foam that i can cutout to fit the profile of what i want. They are gluing 1/2" foam on top and bottom. Plan on using plexiglass to seperate stones into 2 levels with foam glued to the plexiglass. Hope this makes sense to those who read it!

www.aluminumcaseco.com/

Below pasted from there website.

Manufactured in America (Chicago, IL) with aluminum that was

melted, rolled and processed in the United States.

Pink Floyd

Which case did you order and did you have to specify the different layers of foam? If you dont mind would you let us know how much the case cost.

Lucky

_____

Lucky,

I don't have access to the Pricing that I was given, but will post when I get home.

For the foam I just specified 1/2" 2 lb foam glued to the lid and bottom of the case.

They will then lay in the 1" thick 2 lb foam unglued in the bottom (4 pieces), 1 1" thick Piece for the top.

I can cutout the individual 1" pieces the way I need it, then will glue in with a glue gun.

The cases can be anodized also. I ordered the model 216 C style case 21x13x6 for the WE.

_____

Lucky,

Here are the prices of the cases that I had inquired about. Foam, is extra but not alot.

Model	Price
186	$ 95.70
188	104.50
216	112.20

219	121.00
246	126.50
249	129.80
276	142.50
279	151.80
